

SPONSORSHIPS

GrizzHacks

We invite you to sponsor **GrizzHacks**, a student run hackathon hosted by Oakland University's School of Engineering and Computer Science. On **November 4th, 2016**, over **300 students** will travel to Oakland University and spend the weekend creating unique hardware and software projects from the bottom up.

What is a Hackathon?

A hackathon is best understood as an "invention marathon". It is an event where passionate engineers, programmers, and technology fanatics join together to participate in a 36 hour competition for creating the coolest or most useful product or service from scratch.

Why Sponsor a Hackathon?

Sponsorship of GrizzHacks is a great opportunity for a company to enhance its presence in the Midwest and meet the brightest minds from the area. As a sponsor you can expect:

- Networking opportunities with forward-thinking and self-motivated students.
- Branding on event flyers, banners, and swag to boost your company's image.
- A platform to showcase your products and/or APIs to hundreds of students and see the creative ways in which they use your services.

Why GrizzHacks?

Oakland University has one of the top Computer Science and Engineering programs in the nation. This past March over 150 students came to this incredible university to participate in the first iteration of GrizzHacks, which was a huge success and received positive feedback from all sponsors. We expect many of those enthusiastic developers to return, along with a number of new students to help the event double in size.

Sponsor Tiers

Below is a list of sponsorship tiers. The GrizzHacks team is open to negotiation if one of the packages does not perfectly meet your needs. If you have any questions, you can contact GrizzHacks at **info@grizzhacks.com**.
